IS FATIGUE IMPACTING YOUR WORKPLACE?

Fatigue is inevitable in a world reliant on 24/7 operations. Fatigue cannot be completely eliminated in the modern workforce, but the risk associated with fatigue can be managed. Join us for Fatigue Risk Management Industry Day and hear from international scientists and industry experts on the latest developments in the science of fatigue and how to mitigate its impact on your workplace.

MAKE A DIFFERENCE IN YOUR COMPANY

Make an impact at Industry Day by telling us what topics matter to you. Over 150 international experts on fatigue risk management will be visiting the Inland Northwest, and we are gathering select experts to lead breakout sessions focused on high-priority topics for your industry. Register today and tailor the breakout session topics to the needs of your team.

Customized Breakout Session
$500 per company (up to 10 people)

Individual tickets: $60

REGISTER ONLINE:
go.wsu.edu/industryday
Deadline to sign up is August 30

“IF YOU WORK IN 24/7 OPERATIONS, EVEN IF YOU GET DECENT SLEEP, YOU’RE ALWAYS GOING TO BE TIRED AT 4 O’CLOCK IN THE MORNING. WE NEED TO START THINKING ABOUT HOW TO GET PEOPLE TO WORK SAFELY WHILST FATIGUED.”

—DREW DAWSON
Professor
Director, Appleton Institute
CQUni, Adelaide, Australia
