

## Working with *HeyGen AI*

### Creating a video presentation using *HeyGen AI*

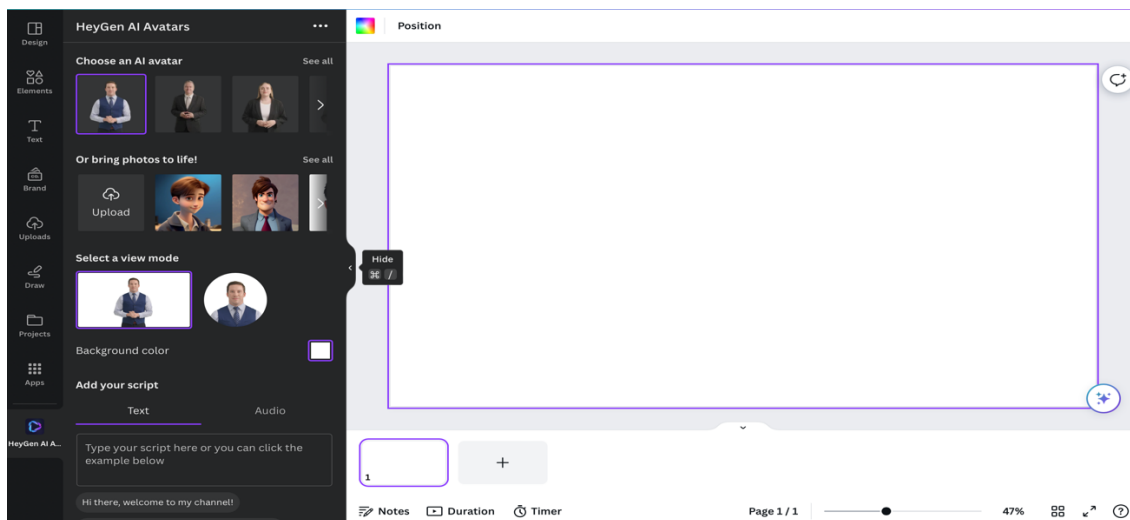

1. Go to **canva.com**.
2. Sign in using Gmail or sign up using your WSU email.
3. Find and click on the purple **Create a Design** button and then click **Presentation** in the dropdown menu.

You can also click on the orange Presentations button in the middle of the screen.

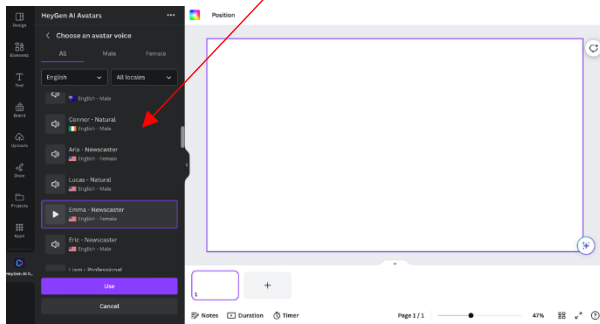

4. Click on **Apps** in the left menu, then scroll down to “AI Powered” and click on *HeyGen AI Avatars*.
5. Click the purple **Open** button. Your screen should look like this:

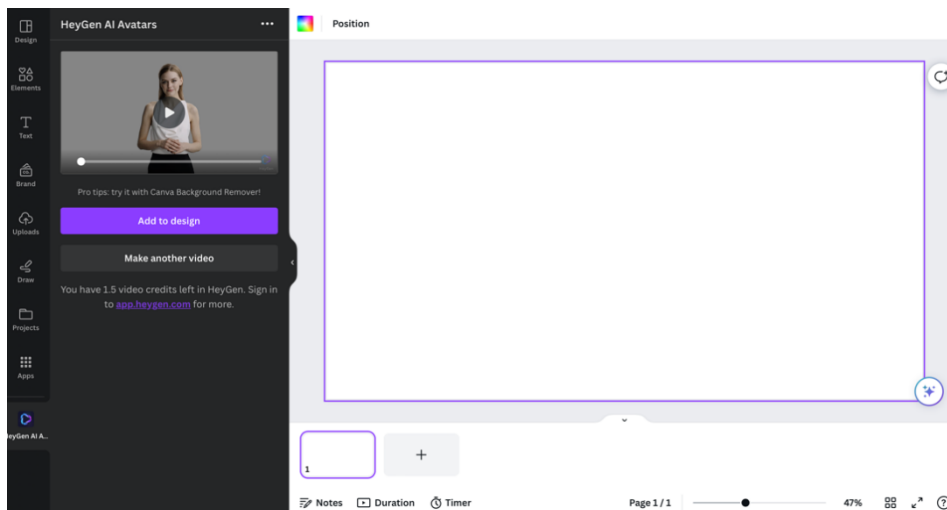

6. Choose an avatar by clicking on one of the pictures provided or uploading your own.
7. Scroll down the menu to choose a background and write a script for your video where indicated.

8. Then, choose the avatar voice that you want to use by clicking on the appropriate button.

9. Generate your AI video by clicking on the purple **Generate Video** button at the bottom of the menu. It might take a little while to generate.

10. Then, click the **Add to Design** button to edit. You can edit the video, crop it, or put filters.

There you go! AI-created video in a few minutes!
